

## **speedikon FM AG welcomes delegation group from Egypt, Georgia and Ukraine in Bensheim, Germany**

*Leading software solutions developer welcomes a group of managers from Egypt, Georgia and Ukraine to its headquarters in Bensheim, Hesse. The visit is intended to strengthen international business relationships and promote innovation and global knowledge transfer.*

**Bensheim, Germany, June 20, 2024** – The German software company speedikon FM welcomed a group of managers from Egypt, Georgia and Ukraine to the company headquarters in Bensheim, Germany. The participants were given a comprehensive insight into the various software solutions of the speedikon group of companies.

The discussions that took place during the visit covered the topics of digitalization, software solutions for more sustainability in the company, digital twins in production facilities and buildings as well as energy and data center management. In this context, the participants also discussed the role of artificial intelligence and the use of new technologies in the industrial environment.

Furthermore, the software company presented its new robot dog "Floppy", which generated a great deal of enthusiasm. The group of companies is increasingly incorporating disruptive technologies into its software portfolio in order to remain a market leader and offer its customers the most suitable solutions.

speedikon FM would like to thank not only the delegation group from Egypt, Georgia and Ukraine, but also AHP International GmbH & Co. KG, which organized the meeting and thus contributed to strengthening international business relationships.

"The cross-industry transfer of knowledge and intercontinental cooperation is of particular importance for the success of our company," emphasized Adrian Merkel, CEO of speedikon FM.

### **About speedikon FM**

speedikon FM is a pioneering software company that specializes in the digitalization of technical and commercial processes within buildings, data centers, and industrial plants. Since 1997, our company has been providing not just products, solutions, and technologies, but also a comprehensive range of services that empower our customers to optimize their asset-related business operations. Our team at speedikon FM possesses extensive expertise in handling vast amounts of data, complex databases, and seamless integration with existing software and hardware solutions.
