

## **speedikon FM AG welcomes delegation group from Chile in Bensheim**

*Leading software solutions developer welcomes a group of managers from Chile to its headquarters in Bensheim, Hesse. The visit is intended to strengthen international business relationships and promote innovation and global knowledge transfer.*

**Bensheim, Germany, October 9, 2024** – The German software company speedikon FM AG welcomed a group of managers from Chile to the company headquarters in Bensheim, Germany. The participants were given comprehensive insights into the various software solutions of the speedikon group of companies.

The discussions that took place during the visit covered the topics of digitalization, software solutions for more sustainability in the company, photorealistic digital twins as support in energy monitoring in the production area, and effective building, energy and data center management. The topics of ESG and reducing the CO2 footprint were discussed in particular. The participants also exchanged views on the role of artificial intelligence and the use of new technologies in the industrial environment.

Furthermore, the software company presented its robot dogs “Floppy” and “Byte”, which generated a great deal of enthusiasm. “We are increasingly incorporating disruptive technologies into our software portfolio in order to remain a market leader and offer our
