
speedikon FM AG expands to Switzerland

speedikon FM AG has established speedikon FM Schweiz AG in Zug to strengthen its presence in the Swiss market and provide better support to customers and partners on-site. Switzerland has been a key market for the company for years, with numerous successful digitalization projects in Facility & Corporate Real Estate Management and Data Center Management. With this new subsidiary, speedikon FM AG can now offer direct local support and enhance collaboration with Swiss customers.

Bensheim, Germany, February 13, 2025 – speedikon FM AG, a leading provider of software solutions for Facility & Corporate Real Estate Management as well as Data Center Management, has reached another milestone with the launch of speedikon FM Schweiz AG. Based in Zug, the new subsidiary will now serve as a central point of contact for customers and partners in Switzerland.

"Switzerland has always been an important market for us. Our Swiss customers are known for their strong innovation mindset and creativity. Over the years, we have successfully delivered numerous digitalization projects in building, asset, and process management," says Adrian Merkel, CEO of speedikon FM AG.

Establishing a dedicated Swiss entity was the next logical step to expand speedikon FM AG's market presence and meet the growing demand for digital solutions in Facility & Corporate Real Estate Management and related fields. With a physical presence in Switzerland, the

company can now respond faster to customer needs and provide even more personalized support.

"With speedikon FM Schweiz AG, we are now offering our customers direct, local support, making collaboration even more efficient. This move reinforces our commitment to long-term partnerships and advancing digitalization in the Swiss real estate and industrial sectors," says Adrian Merkel.

speedikon FM Schweiz AG will focus on consulting and implementing the proven software solutions of the speedikon group, which includes WiriTec GmbH, Framence GmbH, and Innomatik AG. Together with its customers, the company will develop cutting-edge digitalization strategies to drive innovation in the industry.

About speedikon FM AG

speedikon FM AG is a pioneering German software company that specializes in the digitalization of technical and commercial processes within buildings, data centers, and industrial plants. Since 1997, our company has been providing not just products, solutions, and technologies, but also a comprehensive range of services that empower our customers to optimize their asset-related business operations. Our team at speedikon FM AG possesses extensive expertise in handling vast amounts of data, complex databases, and seamless integration with existing software and hardware solutions.
